SKILLS

Apps and web
WordPress · Next.js · React · Astro · Flutter / Dart · Kotlin · Node.js · PostgreSQL · Python · MS SQL · Git

Security
Burp Suite · OWASP ZAP · Nmap · Wireshark · Wazuh SIEM · OWASP Top 10 · Web attacks (SQLi, XSS) · Vulnerability analysis · OSINT · ISO 27001

Systems and networks
Linux (CLI) · Bash · Windows · TCP/IP · DNS · Firewalls

Tools and automation
n8n (workflows) · Local LLM models · VS Code · Android Studio · M365

CERTIFICATES AND COURSES

MASTERMIND
ISO/IEC 27001:2022 Lead Auditor

EY (Program CRC)
Web application penetration testing

ING Hubs (Program CRC)
Cybersecurity - defense in modern organisations

Cisco
Ethical Hacker, Linux Essentials, Introduction to Cybersecurity

Securitum
WAZUH Expert

Niebezpiecznik
Cybersecurity for businesses

Akademia Wywiadu
Cybersecurity fundamentals, OSINT

NAVOICA
Fundamentals of network infrastructure

Wrocław University of Science and Technology
AIDEAS (Idea Generator)

Rescue House (ITP)
First aid instructor course (2026)

Rafał *Charciarek*

Application security tester · WordPress websites

I test the security of web applications using the OWASP Top 10 methodology, and I also build WordPress websites and Flutter apps. I do websites and security together because I know how websites break: finding that is my job.

WORK EXPERIENCE

2026 - present
Application Security Tester · Exact Forestall S.A.
Manual penetration testing of web applications following the OWASP Top 10 methodology.

2025 - 2026
Application Tester · Exact Forestall S.A.
Designing and running test scenarios for system modules and reporting defects in the development environment.

2024 - 2025
Sales Specialist · Exact Forestall S.A.
Winning foreign business clients and advising on the company's solutions.

Earlier: Military service in the 131st BLP (2020–2024). Sales and customer service: Fonmix (2019–2020), Wójcik Motors (2018–2019). Production and assembly: X-Kom (2017–2018), English Braids (2016), Bosch Termotechnik (2014–2016), CGR Polska (2011–2013).

MAIN PROJECT

Rysa: a network audit app

An Android app I wrote to audit my own network. It runs nmap in Kali NetHunter on a rooted phone and turns the results into a prioritised report. I scanned Metasploitable 2 with it, a deliberately vulnerable lab machine. The result is a 79-page report. It is an exercise in my own lab, with no client.

30	5	7	2	23
findings	critical	high	CVEs in the CISA KEV catalog	public exploits

`nmap (Kali NetHunter) → whatweb, sslyze, ssh-audit, dig, p0f, UPnP → NVD, OSV.dev, CISA KEV, Exploit-DB (metadata) → a Gemini model with pseudonymisation and a CVE validator → PDF report.`

OWN PRACTICE

- **Dyżur: a rota that switches the phone.** Web panel and Android app, 2026.
- **Zdzichu.** M5Stack Core2 device, 2026.
- **Brownian Motion Simulator.** Flutter app.
- **Firewall testing scripts.** UDP flood and DoS for firewall testing, in my lab.
- **Capture the Flag.** Arctic Howl (OffSec): 272nd place of 1546 participants.
- **Breath of the Bald.** Flutter app, 2025.
- **lysyweb.pl.** WordPress with a custom theme, 2026.
- **Mobile pentesting platform.** Kali NetHunter on a OnePlus 6T with an AI assistant.
- **Automation and local models.** Local LLM models and n8n workflows.

EDUCATION

2024 - present — **Computer Science**
WSB Merito University in Chorzów

2005 - 2009 — **High school diploma, IT**
Technical Science Schools in Częstochowa

LANGUAGES AND OTHER

- Polish (native)
- English (C1)
- Driving licence, category B
- Qualified first aid, rescuer (WCKMed in Łódź)
- PC and mobile hardware servicing

Got a project *or a commission?*

I usually reply the same day. I have a job, but I can take on additional commissions.

Write about a commission →
